

Journal Name:	Asian Basic and Applied Research Journal
Manuscript Number:	Ms_ABAARJ_1796
Title of the Manuscript:	Effect of soil types and Chicken Manure on Cucumber (Cucumis sativus L) Growth and Yield under Greenhouse Conditions.
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This article deals with the effect of soil types and chicken manure on growth and yield of cucumber. The results showed that this effect depends on the dose of chicken manure fertilizer and is more marked for clayey soils. It addresses a very interesting problem in a context of high agricultural productivity.	Noted
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes However, the main results should be indicated in the abstract.	
Is the manuscript scientifically, correct? Please write here.	Yes But authors are invited to reread the manuscript	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No They are very insufficient and very old	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u>comments	1- the introduction is not well structured and it is difficult to follow the argument. it is necessary that it be constructed starting from a main idea and showing the interest of this study. Furthermore, can the authors propose working hypotheses 2- The authors compare their results to those of previous works but do not really explain them. This part must be revised 3- Is it possible to give the proportions of particles (sand, silt and clay) of the different types of soil?	Noted

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
